Projects

Fashion Trend Clothing Recommendation System| GitHub Dec 2025

- Utilized Python libraries such as Pandas, NumPy, and machine learning algorithms to build a personalized fashion recommendation model.
- Delivered trend-based outfit suggestions using AI-driven recommendation techniques combining collaborative and content-based filtering.
- Conducted exploratory data analysis (EDA) to uncover trends in clothing preferences, seasonal styles, and customer behavior.
- **Tech:** Python3, EDA, Machine Learning

Self-Healing Web Application Connect | GitHub Mar 2025

- Developed and containerized a full-stack application using **Node.js, Express.js, HTML, CSS, and JavaScript** for consistent and scalable deployment.
- Implemented a **CI/CD pipeline using Jenkins** to automate the build, testing, and deployment processes, ensuring faster and more reliable software delivery.
- Dockerized the application using **Docker containers**, enabling environment consistency across development and production while improving deployment efficiency and scalability.
- **Tech:** HTML, CSS, JavaScript, Node.js, Express.js, Docker, Jenkins, CI/CD

Energy Consumption Assistant | GitHub Nov 2024

- Engineered an AI-powered Energy Consumption Assistant Bot with browser -based interface to analyze user energy usage and provide personalized efficiency and cost-saving recommendations.
- Optimized JavaScript logic and interactive components to enable accurate energy consumption analysis and Deliver real-time, user-friendly energy-saving recommendations.
- Architected a scalable and maintainable codebase that enables seamless feature integration and future Enhancements of the Energy Consumption Assistant Bot.
- **Tech:** HTML, CSS, JavaScript, Gemini API

Certificates

- Data Structure and Algorithm: CPP| Cipher Schools Jul 2025
- Privacy and security in online social media | NPTEL IITKGP Apr 2025
- Responsive Web Design | FreeCodeCamp Nov 2023

Achievements

- Gained hands-on experience in cloud infrastructure and scalable cloud-based application management. Jan 2026
- Solved 100+ LeetCode problems. | Profile Dec 2025
- Earned 3 HackerRank badges and 4 technical certificates. | Profile Nov 2025
